

Air Traffic Control (ATC)

ATC Primary Course (ADV)

Duration: 8 weeks

Objectives

Provide entrants with the necessary skills, knowledge and competencies to successfully pass the practical and theoretical instruction in Aerodrome Control Instruments and achieve their student/ATCO licence. This course is designed to prepare students to carry out the role of an Air Traffic Controller Assistant and incorporates airfield visits, practical instruction, written and verbal tests.

Prerequisite

- ICAO 051 ATC Assistant, or equivalent course
- English Language upto IELTS 5.5

Course Content

Theory

- Introduction
- Air Law (Law)
- Air Traffic Services (ATS)
- NOTAMS
- Communications (COM)
- Aerodrome Control (ADC)

Simulation Training

35 hours of simulation per student will be provided during the course including assessments and final examination.
