

# E-Learning Course

## Global Reporting Format

### Program Overview

The ICAO Global Reporting Format (GRF) is a globally harmonized methodology for runway surface condition assessment and reporting. It is intended to be the only such reporting format for international aviation, with the objective of reducing runway excursions, thus improving the safety of airport operations. This awareness program provides the minimum knowledge and skills required on Runway Condition Reporting as outlined in ICAO Circular 355 (Assessment, Measurement and Reporting of Runway Surface Conditions). It will be mandatory for the relevant personnel to undergo Initial Training prior to the Effective Date, as well as subsequently undertake Recurrent Training as per the Competencies laid down by ICAO in Section-6, Attachment-A of the aforesaid ICAO Annex.

### Course Content

- The Runway Condition Report & Runway Condition Code – Introduction
- Objectives of Runway Condition Code
- Operational Practices
- Assessing a Runway and assigning a Runway Condition Code using RCAM for generating RCR
- Significant changes and downgrading/upgrading of Runway Condition Code

### Duration

Initial Course: 2 Hours 30 Minutes

### Knowledge Check

Initial Course: 15 Questions

### Assessment

Overall, a minimum score of 75% is mandatory for passing the exam

### Certificate

GAA certificate of recognition is awarded upon successful completion of the course and assessment
